

[WHAT'S PROPRIETARY](#) · [THE STACK](#) · [ITERATION A](#)

AEO vendors stop at the dashboard. We ship the layer where the P&L moves.

Two integrated software layers feeding one layer of outcomes. The middle layer is where briefs, plans and segment positioning get built — the layer below captures data, the layer above is the P&L.

03 · THE OUTCOME

Telco P&L

WHAT THE INSIGHT LAYER IS BUILT TO MOVE

Sentiment ▲

THE BRAND STORY IN THE ANSWER

How buyers feel when the AI explains your category.

Consideration ▲

SHARE OF THE SHORTLIST

Whether you make the answer when a buyer narrows the field.

Purchase ▲

THE NUMBER ON THE P&L

Activations, upgrades, subscribers converted.

▲ SEGMENT POSITIONING ▲

Insights Delivered

THE TAPE IS RETAINED + ANALYZED
HERE

Secondary data built from the tape — delivered in-portal as the fixes a team can run.

- **Prompt tracking + trend** — every question, every model
- **Citation inspection** — domains + source types per answer
- **In-portal AI agent (MCP)** — ask the full tape live
- **Competitor landscape** — visibility · sentiment · position
- **Action briefs** — content · technical · schema

ACTION BRIEFS

this week

Home Office Fiber · content	PRI 1
Flex Data · tech schema	PRI 2
SMB bundle · brief	PRI 3

→ Ask: how is my brand trending vs competitors?

Data Capture

"THE TAPE" · LIVE CAPTURE

AI Visibility measurement + SEO (GSC + GA4)

One system, two input streams, feeding the same portal. The signal is pushed up to the Insight Layer, where it's retained and analyzed.

VISIBILITY · 30D

VS. AEO VENDORS

They sell AI visibility only. We ship **AI Visibility AND SEO as one integrated system** — measurement, interpretation and delivery, all in-portal.

VS. CONSULTING / AGENCY SERVICES

Software, not a retainer. The briefs, plans and action priorities ship with the subscription — continuous, in-portal, not episodic.Want this stack running on **your P&L?**
